Sales Reports

Summary reports on sales by item, group, type of goods and services and department, together with supporting printouts related to invoice fiscalization. Each report opens a dialog in which the period and other print conditions are set; the finished printout is sent by e-mail, downloaded or previewed on screen — see Print language.

Reports

- Item Sales
  Quantity and value recap of goods and services sold in the period, sorted by item group.
- Sales by Profit
  Ranking of items by total gross margin achieved in the period.
- Sales by Profit (Bank Payments)
  Variant of the report for flat-rate sole traders: revenue is shown only for **paid** invoices, in proportion to the share paid. Payment is tracked through entered and linked bank payments and cash register receipts.
- Sales Recap
  Sales recap by type of goods and services and by department — wholesale, retail and service job orders.
- F1 Late Fiscalisation Statement
  Letter to the Tax Administration listing invoices that were sent to ***F1*** fiscalization late or were not fiscalized at all.
