

Schedules and appointment management

~ RESERVATIONS ~

The tab lists all bookings created from this schedule in the [calendar](#) — both those members entered themselves and those the system entered automatically from a member schedule. It is available only in the *Schedule - Edit* dialog.

The tab header shows the service, trainer and appointment time of the schedule.

Filter

- **{Date}** — Narrows the list to bookings on the selected date.
- **{Member}** — Narrows the list to bookings of the selected member.

Columns

- *Date* — Appointment date with the weekday, e.g. *25.09.2026 Fri*.
- *Member* — Member's name.
- *Status* — *Booked* for a confirmed booking, *Waiting List* for a member waiting for a free place; waiting-list rows are highlighted yellow.

Below the list is pagination with a *Rows per page* selector.
