Recipes / Bill of Materials

Recipes are used to define Food and Beverage.
Bill of Materials are used to define **Finished Products** in Manufacturing.

Notes

- *Recipes* and *Bill of Materials* are universal for the whole company and can therefore be edited within any department.
- *Recipes* and *Bill of Materials* are entered in the same form.
- The entry of a new Recipe or Bill of Materials is possible only after selecting a *{Type}* in the filter.
